EXPERIENCE

Machine Learning Engineer (NLP & GenAI team) <i>CM — Belgium's largest health insurance fund (4.5M+ members)</i>	Jan. 2024 – Present <i>Brussels, Belgium</i>
• Architected CM's first GenAI framework powering 10+ production assistants and cross-team applications. • Launched mail-reply AI assistants generating 15,000+ replies/day to incoming member emails. • Established automated evaluations for AI assistants using classical NLP and LLM-as-judge metrics. • Fine-tuned EmbeddingGemma to match Cohere Embed v4 on internal retrieval benchmarks. • Implemented AWS SageMaker ML Pipelines for model training and serving, later adopted by sibling teams. • Automated analysis of 10,000+ daily member interactions using AI-powered Dagster pipelines. • Built CI/CD pipelines, reusable Terraform modules, and Grafana dashboards to deploy and monitor AI assistants on AWS. • Led the AI Community with 100+ average attendees across 7 sessions to promote AI adoption across the division.	

PROJECTS

Pookie — YouTube channel on applied AI youtube.com/@pookiehd	Dec. 2024 – Present
• 6,000+ subscribers. • Top video: "How to Finetune LLMs with Unsloth" — 70k+ views. • Create approachable applied-AI content on topics I actively explore, including LLM fine-tuning, coding agents, local inference, and open-source GenAI tools.	
PsyScribe — AI mental-health assistant <i>React, Flask, Google Cloud</i>	Jul. 2023 – Feb. 2024
• Commercialized my master's thesis into an AI mental-health product at psyscribe.com. • Reached 30+ monthly paid subscribers.	
crev — AI Code Reviews from the CLI <i>Go, Google Cloud</i>	Aug. 2024 – Dec. 2024
• Built a CLI tool that bundles a codebase into a single file and generates AI-assisted code reviews. • Reached 39 GitHub stars and 5 monthly paid subscribers.	

PUBLICATIONS

Vossen, W., Szymanski, M., Verbert, K. *The effect of personalizing a psychotherapy conversational agent on therapeutic bond and usage intentions*. ACM IUI 2024, Greenville, SC — **35** citations.

Sileo, D., **Vossen, W.**, Raymaekers, R. *Zero-Shot Recommendation as Language Modeling*. ECIR 2022 — **92** citations. Task contributed to Google BIG-bench, the foundational LLM evaluation benchmark used across frontier AI labs.

EDUCATION

KU Leuven <i>Master of Engineering, Computer Science (option AI) — magna cum laude</i>	Sept. 2021 – Jul. 2023 <i>Leuven, Belgium</i>
KU Leuven <i>Bachelor of Science, Computer Science — cum laude</i>	Sept. 2018 – Jul. 2021 <i>Leuven, Belgium</i>
KU Leuven <i>Bachelor of Science, Psychology — cum laude</i>	Sept. 2015 – Jul. 2018 <i>Leuven, Belgium</i>

TECHNICAL SKILLS

Languages: Python, TypeScript, Go, SQL
ML / GenAI: PyTorch, Hugging Face, Sentence-Transformers, Unsloth, Agentic systems, RAG, Weights & Biases, LLM evaluation, llama.cpp
Cloud / Infra: AWS, ECS, FastAPI, Docker, Dagster, Terraform, Kubernetes, Jenkins, Grafana, Linux
